108 Medical Chambers at 108 Harley Street is a consultant-led and delivered independent out-patient and diagnostic centre offering the highest standards of professional care with a minimum of delay in relaxing and friendly surroundings.

The specialist clinics located at 108 Harley Street are:

The London Breast Clinic – Fully integrated breast care service for all benign and malignant disease with on site digital mammography (including 3D tomosynthesis), ultrasound, cytology and core biopsy allowing rapid diagnosis. Breast screening, genetic and family review also available on site.

The London Skin Clinic – Experts offer same-day consultation and surgery under local anaesthetic for conditions including melanoma, skin cancer, cysts and other benign lesions, together with diagnosis and treatment of general dermatological conditions.

The Gilmore Groin and Hernia Clinic – The diagnosis and treatment for sportsmen and sportswomen with Groin Disruption / Sportsman's Groin (Gilmore's Groin) and adductor injuries, together with herniae of all types, both primary and recurrent. Open and laparoscopic repair are available as appropriate.

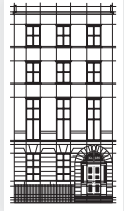

The London Rectal Clinic – Expert opinion and treatment of inflammatory bowel disease including ulcerative colitis and Crohn's disease, malignant and benign disease of the colon and rectum including rectal bleeding, haemorrhoids, pilonidal sinus, fissure, fistula and pelvic floor problems. Bowel cancer screening is also available.

The London Sports Injury Clinic – A cutting edge, multidisciplinary service that specialises in non surgical (including MSK physiotherapy) and surgical solutions for sports and orthopaedic injuries. In addition the clinic focuses on human performance and wellness. *"You don't have to be a professional athlete to be treated like one".*

The London Thyroid & ENT Clinic – The multidisciplinary team is experienced in the assessment, diagnosis and treatment of benign and malignant disorders of the thyroid and general ENT conditions. The interests of the surgical team include thyroid, salivary gland, voice, paediatric, snoring and sinus surgery.

108 X-ray and Imaging – Rapid access to full field digital mammography, ultrasound and where appropriate needle aspiration cytology or core biopsy. A full range of plain film investigations, general ultrasound including abdominal, gynaecological and small part imaging. A full breast screening service is also available.
